Skills

Languages and Programming Skills

HTML, CSS, Javascript,Tailwind CSS, SQL, Python

Frameworks and Libraries

React,Node.js, Express.js

Database

MongoDB, SQL

Certifications

Full Stack Web Developer

AlmaBetter

June 2026

Diploma in Programming

IIT MADRAS

2025

 Diploma in Programming

Diploma in Programming | IIT Madras

- Mastered core concepts in data structures, algorithms, and application development.
- Gained proficiency in Python, Java, database management (DBMS), and software engineering.
- Developed hands-on, industry-standard web applications through rigorous project modules.

Education

CVS College (Delhi University)

Bachelor of Management Studies (BMS)

6.8

2018-2021

Languages

English

Hindi

Summary

Web Developer with hands-on experience **building full-stack applications using React and Node.js**. Proficient in designing responsive frontends with **Tailwind CSS** and developing scalable backends utilizing **Express.js**, and **MongoDB**.

Eager to leverage strong problem-solving skills and a solid foundation in modern web technologies to contribute to impactful software solutions.

Experience

AlmaBetter

Full Stack Development Trainee

June 2026

- Completed an intensive, industry-aligned training program focusing on full-stack web development methodologies and modern frameworks.
- Built and deployed **3+ responsive web applications** using **HTML5, CSS3, Node.js,MongoDB, and React.js** for frontend interfaces.
- Developed robust backend services and RESTful APIs utilizing **Node.js, Express.js, and MongoDB** for efficient data management.
- Designed, tested, and deployed multiple end-to-end web applications, ensuring cross-browser compatibility and responsive design principles.
-

Projects

HealthTech

 Website Link

June 2026

- Developed a full-stack, **responsive** mental health web application utilizing **Node.js** architecture.
- Engineered** a responsive MERN application featuring **secure user authentication (JWT / bcryptjs)**.
- Integrated** an empathetic AI wellness chatbot by implementing the modern @google/genai SDK .
